

Please don't take away my right to privacy! The DNC legislation is integral to mine and my family's privacy, family time and peace & quiet! I'm a single mom - when I come home from work between 5:00 and 7:00 p.m. during the week, it's the only time I have to spend with my kids, make dinner, help with homework, read stories, etc. If I need anything telemarketers may be selling/offering/inquiring, I have access to a telephone and a computer. Weekends are reserved for chores, cleaning and a sad attempt to incorporate a bit of "fun". The last thing we need is the telemarketer calls.

NO MORE UNSOLICITED CALLS!
